[REDACTED] The cue "item of interest" refers to the [REDACTED]

3. (S//NF//SK) COMMENTS: 032 still needs more practice with detailed "I's", general concepts are not a problem but specifics cause him to go into AOL. More experience with military and R&D targets would also be helpful as the boredom of these has caused problems: 032 needs to learn to view boring targets as well as he views interesting or 'hot' operational ones. Maintaining interest and sharpness at all times is something all viewers have grappled with at some point, and, as usual, practice makes perfect. 032 was not able to distinguish anything during the search exercise. ~~The stage 7 exercise was unsuccessful.~~ 032 was not required to write an essay, as immediate feedback was provided so that the concept of "I's" could be discussed and elaborated on.
